Plant Based Foods Industry Contributes \$13.7 Billion To U ... According to report author Jon Haveman of Marin Economic Consulting: "The plant based foods industry is a fast growing industry creating good, high-paying jobs." He added that incomes in the plant-based foods sector average \$59,400, which is about \$13,000 higher than the average U.S. income. Millennials are making frozen food hot again, but can they ... F rozen food is super hot right now. According to David Palmer, an analyst at RBC Capital Markets, sales volumes have grown for the first time in five years. And millennials are largely responsible for this, spending 9% more per shopping trip for frozen foods last year than other groups, according to Reuters. Land Roots - Effects of Food Production on the Environment Unfortunately, animal husbandry is not the only environmental problem of food production. Crop production negatively affects the environment too. It uses even more land, while the use of pesticides, artificial fertilizers and other chemicals seriously pollutes the environment and threatens wildlife species. Avoidance or reduction of meat consumption therefore does not solve the problem with the harmful effects of food production on the environment.
